Schemes in the compiled database
(Rose): 65 schemes in 59 cities
+ 1 identified later (Oxford, 2025)
Excluded: 29
20 linear, bridge or network tolls
3 no bounded zone (plans, packages, single street)
3 point-based charging
2 licence-plate rationing
1 duplicate
Kept: 37 schemes with a bounded zone
+ 13 added because evaluations were known
Inventory: 50 zone-based schemes
searched scheme by scheme (Round 1)
and city by city, peer-reviewed only (Round 2)
No peer-reviewed numeric
estimate: 21 schemes
205 estimates from 92 studies
162 on 29 inventory schemes, 43 on schemes
outside the inventory or pooled panels (Tables S13, S14)
Not used as headline:
Durham and Valletta (grey origin),
secondary outcomes, marginal changes,
pooled and outside-inventory rows
27 scheme phases with a headline estimate
(London ULEZ split at its 2023 expansion,
Western Extension treated as an enlargement)
23 phases with a known zone area (Figure 1)
Enlargements in the same city (Figure 2)
Inside and outside pairs (Figure 3)
